

HIGHER CALL

©1990

Look around you, can you see what's going on?
Compromise is calling you to sing its song
In your heart you can start to make a better choice
And you can rest assured
Whenever you hear His voice

You're following a higher call
Waiting till you know that you finally have it all
Dancing to the fire
Following a higher call
You're following a higher call
Waiting till you know that you finally have it all
Dancing to the fire
Following a higher call

Now it's so hard to know which voice to listen to
When everybody's trying to tell you want to do
You know you can take a stand
Living in the truth
Rising above the crowd
Knowing that when you do

Deep in your spirit you know it
Someone is saying don't settle for less
Why wait for good when He gives His best?
