

I'VE GOT SOMETHING TO SAY

©1990

Hey there people I've got something to say
God's not dead and His children aren't ashamed
Hey now people I'm not just here to play
Stand up, shout it...There's power in Jesus name

We're in a war and we're fighting
A foe never seen
The prince of darkness who claims
We are his property
But God gives us armor
That keeps us standin' strong

Hey there people I've got something to say
God's not dead and His children aren't ashamed
Hey now people I'm not just here to play
Stand up, shout it...There's power in Jesus name

I'm fed up with the lies
That would blind from the truth
Enough's enough from a devil
Whose hell bound to lose
The sword of the Spirit
Gives us the victory

Hey there people I've got something to say
God's not dead and His children aren't ashamed
Hey now people I'm not just here to play
Stand up, shout it...There's power in Jesus name
