

LIFE ON THE EDGE

©1995 Paragon Music Corp.

Why does it seem
We never know which way to go
Wasting our time
Trying to decide
Which way the wind will blow
And if you feel
You're on the outside looking in
There is a place not far away
Further than your comfort zone
But you will never walk alone, Oh, no

Life on the edge
You're standing on the top of a brave new world
Make it your pledge to give it your all
And answer the call There's life on the edge

You can go with the flow
But it might take you where you don't wanna go
You try to fit in You're dancing with sin
It's time to live what you believe
We live in a world that will demand your very soul
So stand apart and guard your heart
You can't follow the status quo
You've gotta walk the narrow road
You're not alone

As the days fade and the years go by
We can see our lives are part of his plan
When we look back on all we've done
In our hearts we've learned
We've done all we can to live
