

ONE NATION UNDER GOD

©Lifesong Music Press

Our fathers built this land
On the foundation of the word
They gave their lives for truth and liberty
Yet today there's something missing
We've pushed aside God's word
It seems we've lost the reason to believe
The banner's torn and tattered beneath a cloud of sin
And it's time we took America back to the cross again

We gotta love one another
Stand together
Fight this war no matter what the cost
We gotta pray for our children
And turn our hearts toward heaven
And seek to be one nation under God.

We've bowed to this world's idols
We have built our Babylon
When will we see we're on a dead end course
We used to stand amazed
At the miracle of birth
But now it's nothing more than just a choice
You see the world slowly dying and the end is drawing near
But our only hope is Jesus we've gotta let the whole world hear

Within the heart of every child
There burns a holy flame
Strong enough to pierce the dark
Through the power of his name
