

STAND ON LOVE

©1995 McSpadden-Smith Music

Every Sunday by the millions
We go our separate ways
A splintered family of believers
All seeing the same face
Our common goal will make us stronger
Than any argument we win
Cause when we reach out to each other
We're reaching out to him

His grace is unconditional
He saved us by his blood
It's not enough to stand on principle
We need to stand on love
We need the freedom and the hope
That flows from mercy's cup
It's essential that we seek his will
We need to stand on love

You see we're so concerned with labels
And wanting to belong
We create so much division
We can't even get along
There's no time to judge each other
We're the only ones who lose
We need to come together
Upon the word of truth

In the body we seek unity
With many parts as one
A house divided cannot stand
We can only stand on love
