

# *I KNOW A LOVE*

©1993

---

Not real sure you can make it till tomorrow  
You've got a world of hurt from yesterday  
You've prayed this prayer a thousand times before  
It seems like nothing will ever change

You find yourself so lost in emotions  
Trying to build your faith on how you feel  
It seems your life's in a downhill motion  
But there's a love that can change your heart for real

I know a love  
Deeper then the ocean  
Greater than the pain  
I know a love  
Stronger than the feelings  
Gives shelter from the rain  
I know a love

How much more can you carry on your shoulders  
It's all become more than you can bear  
How much longer till you lift your heart to Jesus  
And find the one who really cares

You could keep on searching  
But the answer's here for you  
I know a love

In this world where the nights  
Seem longer than your strength  
I know a love
