

FLY WITH THE ANGELS

©1995

It's yours if you believe
When your life escapes you like a runaway train
And the place you come from is a state of pain
They can lift your spirits high above the pouring rain
The truth lies waiting in the sky above
You can sail forever in the presence of
Way up here you'll meet a greater kind of love

You'll go fly with angels
Fly with angels
Fly with angels

On the wings of heaven you will carry loves flame
Like a voice of mercy you will hear your name
When the stones of life rock your world
Just say His name
There's peace up here in the open sky
