

# *IF YOU BELIEVE IN MIRACLES*

©1995

---

When you're far  
Far from the light  
Feel there's no hope  
Left in sight  
And the answer can't be found  
It's no secret I'm telling you now  
Just hold on  
Cause it's gonna come  
If you just pray to the One  
Who hears your every cry  
Don't give up on life

If we believe in miracles now  
We can change the world around  
It all begins with one  
That's how the battle's won  
It's time to believe  
And if you need a miracle now  
You can change your world around  
Have faith enough to see How great His love can be  
It's time to believe (in miracles)

If your heart Is driven by fear  
Your road will be short and unclear  
Just take what's left inside  
His love won't be denied
