

THE ROAD LESS TRAVELED

©1995

To follow what you've never seen isn't easy
Guess it all comes down to a matter of faith
My destination is where Jesus leads me
Where ever He's going
I'm gonna walk that way
Not gonna follow the masses down the path that's wide
Don't wanna bear my regret on the other side

The road less traveled is no easy street
But it leads to a place where faith and glory meet
It carries the sinner to the mercy seat
I wanna feel the road less traveled beneath my feet

Sometimes I go for miles without a sign
Wondering how far it is I've got to go
With nothing but a promise, I take it in stride
'Cause you gotta believe to walk this road
Not gonna follow the masses down a path that's wide
Don't wanna bear my regret on the other side

I want a heart of hope Feet of faith
The will to keep walkin'
Come what may
