

# *SHINE OUT THE LIGHT*

©1992

---

Within the heart of everyone  
Who has come to know the Lord  
There is a light that's burning  
Where nothing has before  
From the kindle of compassion  
To the fever of the flame  
There's a God up in Heaven  
Who is calling your name

Shine out the light  
Shine out the light  
Shine out the light to the world  
Like a candle in the darkness  
Burning through the night  
We've got to shine out the light to the world

When all your friends are crying out  
From the pain that seems too great  
It's up to you to tell them  
Before it gets too late  
But the words that ring the loudest  
Can be spoken with your heart  
Cause when the fire's truly burning  
It will cut through the dark
