I see it all around
There's a new age on the rise
They'll try to tear you down
Don't you believe their lies
It's in the magazines
Every night on the TV screen
When morals come and go
We need to let them know

Stand up for the truth in this world
Stand up, we won't be afraid
Stand up so everybody can see
Jesus, He is alive in a big, big way

It's time to finally speak the truth
In this world of compromise
And be the living proof of love
They just can't deny

Already made my choice
I'm gonna follow Jesus' voice
I'm gonna do what's right
It's time to join the fight
