Jesus is alive in us
He shines through us
He loves the world so much, we're His light

We're His hand, when a heart needs help
We're His arms, when there's no one else
We're His voice, calling in the night
No other could ever heal such pain
Our shelter from the endless rain
Not our strength, only faith in Him

Jesus is alive in us
He shines through us
He loves the world so much, we're His light
Jesus is alive in us
He died for us
He's alive, alive in us

One ripple turned into a tidal wave
Once helpless now riding on the wings of grace

From our hearts flows His precious blood
We're His eyes, looking for the lost
We're His hope, leading them to the cross
Not our strength, only faith, only faith in Him

Adonai, Adonai, oh, oh, oh, oh, God with us
Adonai, Adonai, oh, oh, oh, oh, live in us
Live in us
